PERMANENT STUCCO WASH,
WITHOUT LIME OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing many advantages over the ordinary Lime Wash or other Stucco or BRICK WORK. It is a Stone Colour, but may be tinted to any other—DOES NOT WASH OFF—is perfectly dry in a few hours; and, being a non-absorbent, is admirably adapted for Railway Stations, Dock Warehouses, Barracks, Schools, Prisons, &c. One coat will cover 20 square yards. It will not spoil for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its establishment for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few hours; never blisters, cracks, or repulses; sets hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for the application to every sort of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP JAMES, at the Warehouses, 69, Strand-road, Upper Thames-street. A liberal allowance to wholesale dealers.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving nothing to sour. The satisfaction constantly expressed by Engineers, Architects, and Contractors, of the above, is the best proof.

Gilbert, Cassoine, and Co.'s Blue Vitrified Bricks, Pipes, Junctions, Bends, and Fire Goods.

Roman, Portland, Parker's, Aveton, and Lias Cements of the best quality.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities; is unaffected by sea water, sulphuretted hydrogen, or any of the gases, and restores its original colour where white-lead paint will not. Also Grey Zinc Paint, strongly recommended for fresh work.—Sold wholesale by JOHN WARNER and SONS, 6, Crescent, Jewin-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This element white, the favourite pigment of the ancients, has been used by artists through successive generations, and is still known to the members of the Royal Academy under the old name of Permanent White.

Three years since the proprietors placed their manufacture on a large scale, and offered it at a price to compete with White Lead.

The successful introduction of this paint, and its confessed superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing sulphur, lead, arsenic, and other deleterious materials, alike injurious to health, deficient in body, and retaining the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties whatever, it is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON PATENT,"

and if the cask has not been so marked, the reserve is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—This Company having become Proprietors of all rights and privileges of the Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea water, sulphuretted hydrogen, or any gases; besides it preserves its original colour, which White Lead Paint does not. White Zinc Paint causes none of those ravages, invariably engendered by white lead, upon the human frame; neither painters' colic nor paralysis, &c. &c., to which dangerous complaints the workmen, in the manufactory and use of it, are subject, and to which persons who inhabit newly-painted apartments are also liable. A spurious article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prospectuses, apply to Mr. H. F. WILLIAMS, General Agent for England and Scotland to the Company's Colour, 19, Manchester-buildings, Westminster-bridge; and for supply of materials and prices, at Messrs. CHAS. DEVAUX and Co.'s, 68, King William-street, City.

TO the DEPOSITORS of MODELS in MACHINERY, FINE ARTS, &c., in the GREAT EXHIBITION.

ROYAL POLYTECHNIC INSTITUTION.

Gentlemen,—I have leave to invite your attention to this Institution, which was incorporated by Royal Charter in 1839. One of the main purposes for which it was established was to exhibit to the public, by highly experimental demonstrations, the principles and advantages of useful and scientific inventions.

The Directors have desired me to say, that if you should feel disposed to deposit any articles in this Institution, and will communicate with me here, your application will be immediately complied, and if approved, will be received for that purpose without any expense to you beyond carriage and delivery. A ticket for admission may be attached to each article, and in case of sale no charge is made to either vendor or purchaser.—And have the honour to be, Gentlemen, your obedient servant,

HENRY L. LONGBOTTOM, Secretary.

A MESSIEURS les EXPOSANTS ETRANGERS au PALAIS de CRISTAL.

INSTITUTION ROYALE POLYTECHNIQUE, LONDRES.

Monsieur, Les Directeurs de l'Institution Royale Polytechnique prient que cet Article à Monsieur les Etrangers qui ont encore leurs articles à l'Exposition Universelle une place dans les salles de leur établissement, dans que ces exposants soient à même de profiter d'autres frais que ceux de transport et d'installation.

L'Institution Polytechnique, fondée en 1838 avec autorisation royale, se rapporte par son organisation et son importance du Conservatoire des Arts et Métiers de Paris. Elle se recommande au public tant par les règlements qui la regissent, que par le concours d'hommes spéciaux qui lui ont prêté leur puissant appui et qui cultivent maintenant les principes et les avantages de toutes les différentes utiles ainsi que les perfectionnements qui y sont joints.

Au moyen de cette Exposition croyons que les Directeurs de l'Institution mettent à nous disposition un article qui nous rend les résultats de tout leur travail. Monsieur les Exposants pourront obtenir de nombreux détenteurs. Le prix pourra être indiqué sur les objets exposés et le surplus sera fait aux exposants des offres qui pourront être faites pour cela à leur présent le temps de la réception à l'Institution, rue des Inventeurs, à Southwark.

ROBERT L. LONGBOTTOM.

CLOSE of the GREAT EXHIBITION.—Parties about to REMOVE their Goods from the Great Exhibition Building in Hyde-park are respectfully informed that very SUPERIOR and MODERATE rates can be afforded them in that desirable locality Lower Grosvenor-street, Bond-street, where extensive very light and elegant show rooms, covering from a four square to 8 feet by 8 feet have been erected for the purposes of a permanent Exhibition of Works of Art and Manufactures. For particulars apply at the offices of Mr. J. P. HOPKINS, Architect, 36, Bedford-square.

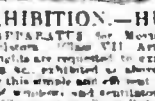
GUTTA PERCHA TUBING.—May be inhaled for years, without injury, and it is therefore valuable for conveying water, steam, &c. It is peculiarly valuable for liquid manure, drain, and soil pipes. Being a non-conductor of cold, affected by the heat of water or steam in summer, like metal or leather. Its strength is extraordinary: the one-half inch diameter tubing having resisted a pressure of 1800 lbs. on the square inch, without bursting. The smaller sizes may be had in 100 feet, and the larger in 50 feet lengths. The joints are easily made. As a conductor of sound it is most valuable for conveying messages in tubes of long lines. Every variety of articles manufactured by the GUTTA PERCHA COMPANY, Patentees, 18, Wharf-road, City-road, London, and sold by their wholesale dealers.

PATENT VULCANIZED INDIA-RUBBER TUBING, for use in Fixings, Chemical Purposes, Fire Engines, Marine Pumps, &c.—JAMES LYNE HANCOCK, Sole Manufacturer and Licensee, Goswell-street-road, London, begs to invite the attention of Architects, Builders, Engineers, and the trade generally, to the Vulcanized India-Rubber Tubing, which is now manufactured from 1 inch bore and upwards, in lengths from 50 to 100 feet and of various strengths, suitable to the purposes for which it is applied. VULCANIZED HOSE for FIRE ENGINES, LIQUID MANURE, and for conveying HOT WATER, BATHS, WELLING HOPPERS and BREWERS' worm-tubes, to resist great pressure of any length and size to order.

Testimonials may be had on application to the Manufactory.

N.B. VULCANIZED WASHERS and SHEET RUBBER of various and Hot Water Pipes, and Packings for Pistons and Glands. Boxes of Steam Fittings cut and made to order.

PAINTERS' BRUSHES, manufactured expressly for the use of painters and builders of the best Russia bristles, warranted. Price list sent post-free on application to the manufacturer, J. R. TYLER, 38, Great Tower-street, Tower-hill, London. No traders are supplied unless stamped "J. R. TYLER, London."



GREAT EXHIBITION.—HURWOOD'S PATENT APPARATUS for Moving and Fastening Windows and Ventilators.—Class VII. Art. 2. Architects, Builders, and Shipwrights are requested to examine the models of windows, ship scuttles, &c., exhibited as above showing some of the modes of applying this simple and efficient invention to move and fasten all kinds of windows and scuttlers. This invention is used for all the Ventilators of the Great Exhibition Building.—Further information may be obtained by applying at the inspector of the above class, and illustrated catalogues will be forwarded per post free upon receipt penny stamps to pay cost thereof, by the patentee, Hanover, Norfolk.

ABOUT EIGHTY VARIETIES of ELIZABETHAN and other ORNAMENTAL CHIMNEY TOPS, may be procured of SHELLEY, Artist in Stone, Manufacturer, Newstead, Nonpareil-park.

*** A pattern sheet will be sent to any one who wishes it.
